

## A LA CARTE

### Why our clients choose our A LA CARTE

**Flexible and Customized** solutions allow you to select and combine only the services that meet the specific needs of your business.

**Control Your IT Costs** by ensuring you buy only what you need when you need it.

**Our Network Operations Center** is available to assist with all your support needs, delivering support remotely and actively monitoring your systems for critical failure.

**CIO Level Information** delivered to you monthly on any of the services purchased, because it's not enough to just have the service if you don't know how well it is working for you.

---

Your technology needs to be as flexible as your business, so we developed our à la carte IT support program. The à la carte program allows you to customize your support and service needs directly related to your critical business services, all at a cost effective price.
